RAIN ZONE XL

Used By ZOOS, Botanical Gardens, Institutions & Hobbyists Around The World!

Assembly Instructions

1. Place on top of any screen top enclosure
2. Connect to a MistKing Misting System
3. Enjoy rain and drizzle without overspray

Step 1: Assemble the Rain Zone by snapping together Side "A", Middle "C", Side "B". Depending on your needs you may use as many Middle "C" extensions as required. Additional Middle "C" extensions can be purchased separately.
Step 2: Install bulkhead into Side "A". Ensure to tighten nut by hand inside the Rain Zone. Plug in the stem elbow into the bulkhead inside the Rain Zone
Step 3: Plug elbow nozzle to the tubing. With razor or with MistKing tubing cutter trim the tubing and plug the T-nozzle (continue to other T-nozzles if you have additional Rain Zone extensions).
Step 4: Plug tubing into the bulkhead elbow and snap tubing into clips to secure it.
Step 5: Enjoy the rain.

Contents:
 1pc - Rain Zone Left Side "A"
 1pc - Rain Zone Right Side "B" 4ft Tubing
 2pc - Rain Zone Middle "C" 1pc Bulkhead
 2pcs Misting Nozzle (L & T nozzles) 1pc Stem Elbow
